

Would you like to reduce your labour costs, eliminate multiple systems and increase your feedlot efficiency using live data?

Reduce labour costs with the Genius 5.0 Feedlot Management System and eliminate the need for multiply systems and double data entry which cause costly mistakes. One system, one solution with real time data.

What Makes An Automated Genius 5.0 Feedlot System So Powerful and Competitive...

The Genius 5.0 are state-of-the-art computerised automated systems developed by our own software engineers, based on over 35 years' experience in the industry.

- Arrival, induction, hospital, draft and dispatch session modules
- Feedlot and commodity management data
- Interactive pen layout dashboard
- Individual & group cattle management
- Animal health treatments and history
- Ration management
- Cattle inventory
- Commodity inventory
- Invoices and statements
- Contract management
- Feedlot accounting activities
- Instant real-time tracking via common site real time SQL data base
- 24/7 support & built-in diagnostics to minimize downtime
- Mobile and tablet interface
- Integration with Genius feedmill control systems
- Interface to ERP or 3rd party accounting packages
- Comprehensive reporting in Excel or PDF format
- Interface to buyer and nutritionist modules
- Customized to meet customer requirements

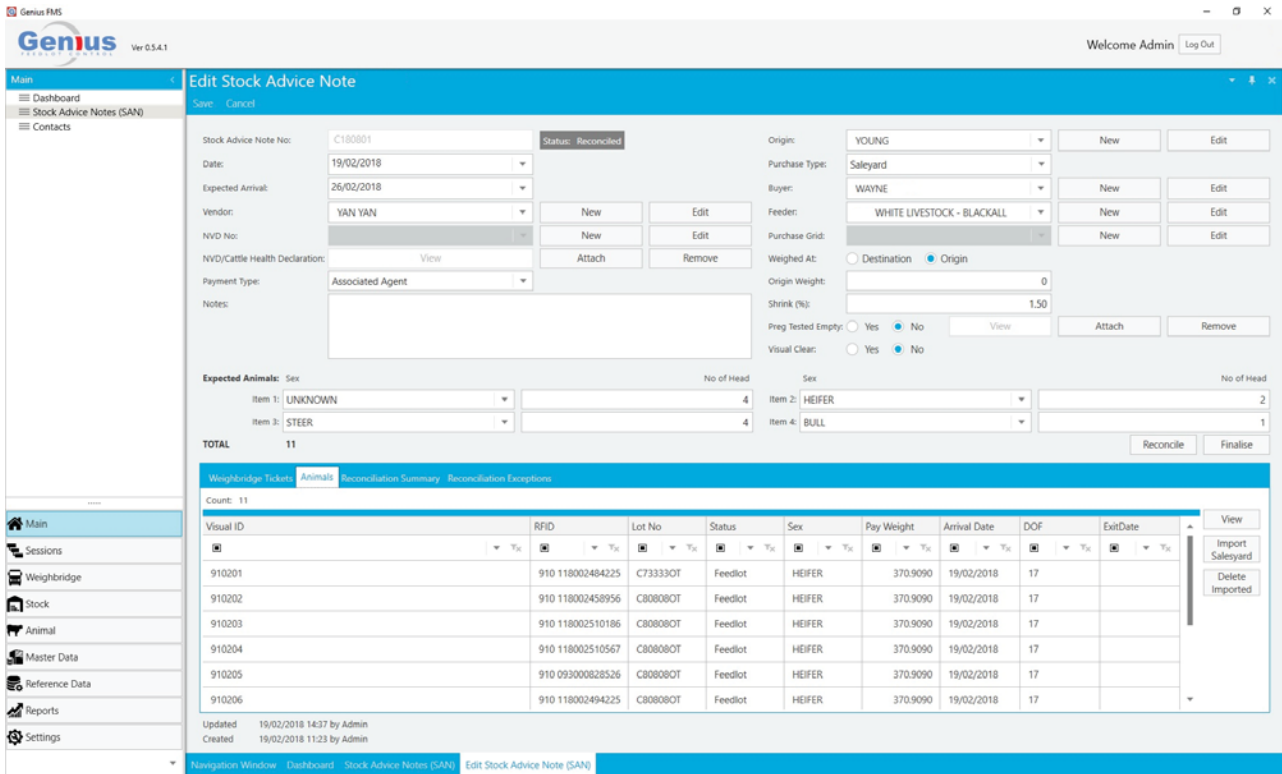

"I would like to thank the team at Gordyn & Palmer for their professional manner in the installation and commissioning of our Genius batching system. The system has been in and running for approximately three years now and the phone and on-line service provided on an ongoing basis is second to none. Gordyn and Palmer will be the first and only people I will be calling to assist us with any future upgrades. Thanks again and look forward to working with you again in the future."

Lindsay Coffey
Production Manager
Advanced Pet Care – Naval Base Western Australia

"Gordyn & Palmer supplied the electrical and automation system at our new feedmill. We are very happy with not only the product supplied by Gordyn & Palmer, but their efficiency in commissioning it, and the backup support they have provided afterwards."

Darren Frankling
Director
Frankling Custom Feeds – Barham NSW

With customised features and solutions for modern plant operations to increase production and profits call us on 03 9703 2477 to find out about how you and your plant will benefit using over 35 years' experience
