

Would You Like To Reduce Your Manual Labour Costs, Slash Downtimes & Increase The Efficiency & Production Of Your Plant?

It's not uncommon to equate new processes with high costs. But with our industrial electrical fit outs and by providing you with the complete service, you can ensure longevity and reliability to the plant while benefiting from an operational cost saving.

What Makes Our Installation, Service & Maintenance More Powerful and Competitive than our competitors?

Our Electrical Maintenance and Support clients have come to rely on us for prompt and knowledgeable service (24 hours), with a high level of competency in all our projects and electrical contracts.

Our experienced staff will assist you on areas of improvement and recommend a solution for the best outcome for your plant.

- 24/7 support
- Fault finding / problem solving
- Total electrical engineering
- Industrial & commercial
- Motors & Variable Speed Controllers
- PC & PLC control
- Data communication
- High & low voltage power distribution
- Field Installation
- Switchboard design, manufacture, installation and service
- Thermoscan surveys – Locate overheating of electrical equipment and prevent downtime and loss of production caused by electrical failures
- Sheetmetal fabrication

“Gordyn & Palmer were awarded the **Electrical Engineering & Switchboards** and **PLC & SCADA** tenders for our new rock crushing plant in Wyndham Vale.

This encompassed the plants electrical design, switchboard design & manufacture, and software design. G&P also undertook the High Voltage design and management required to supply the plants electrical demand.

G&P were selected based on quarry industry experience and reputation, as well as relationships developed during initial plant concept discussions.

This project has confirmed our trust in G&P's ability to deliver a complete package. G&P have provided the customer service that is necessary to be successful in a project of this size.”

Ivo Rigoni
Project Engineer
Barro Group Pty Limited

Gordyn & Palmer
Complete Electrical & Automation Solutions

One System One Solution

Proudly produced and supported
in Australia by Gordyn & Palmer Pty Ltd

With customised features and solutions for modern plant operations to increase production and profits call us on 03 9703 2477 to find out about how you and

your plant will benefit using

Gordyn & Palmer over 40 years' experience.
